MACHINE FAMILY

A FIT FOR EVERY FOOT

THE PERFORMANCE YOU DEMAND, THE COMFORT YOU DESIRE

FIND YOUR MACHINE FIT GUIDE

Three different Machines, three different last widths, three different cuff volumes. Three surefire ways to get the performance you demand and the comfort you desire.

PROMACHINE PURE POWER

Last Width: 98 mm
Volume: Low
Skier Type: Advanced to Expert
Feel: Snug & Precise Throughout
Fit: Easy entry and exit, All-day comfort

SPEEDMACHINE TRUE PERFORMANCE

Last Width: 100 mm
Volume: Mid. Pro Cuff +2mm; Pro In-Step +2mm
Skier Type: Beginner to Expert
Feel: Snug heel hold with relaxed forefoot
Fit: Easy entry and exit, All-day comfort

SPORTMACHINE ABSOLUTE CONTROL

Last Width: 102 mm
Volume: High. Pro Cuff +9mm; Pro In-Step +6 mm
Skier Type: Beginner to Advanced
Feel: Snug heel hold with comfortable/roomy forefoot
Fit: Extra easy entry and exit, ACP accommodates larger calves, All day comfort plus

THE THREE REVOLUTIONARY MACHINES SECTION TRI-FORCE FRAME TECHNOLOGY

Three different plastics provide the level of power, comfort and easy of entry you need.

WHITE

Soft plastic flaps promotes easy entry & exit.

BLACK

Anatomical frames wraps comfortably around the foot.

RED

Rigid spine and sole instantly transmit energy from feet to skis.

SPEEDMACHINE 3 IT'S BACK, IT'S PERFECT.

3 FORCE LINER

- IMPROVED CUSTOMIZATION
- PERFORMANCE
- FIT
- LATERAL TRANSMISSION & SUPPORT PADDINGS UPDATE FOR LONG LASTING DURABLE FIT

3 FLEX ADJUSTMENT

- ALLOWS FLEX REGULATION FROM HARDER TO SOFTER FOR A PERSONALIZED PERFORMANCE DEPENDING FROM THE RIDE

3 INJECTION

- INJECTION CONSTRUCTION
- 5 % LIGHTER VS OLD SPEEDMACHINE
- INFRARED READY

MAKE YOUR CHOICE

In the back of the cuff we also wanted to place an additional innovative element. With the Flex Adjuster, just unscrew the upper screw of the system to obtain a softer flex: by removing the lower screw the boot will become even softer. With this simple method we give consumers an additional element of customization.

1

FLEX ADJUSTMENT

1. Standard Position: Stiff Flex.
2. Unscrew the black tooth and rotate the plastic piece by 180° for a Medium Flex.
3. Remove the screw for a Softer Flex.

BENEFITS

- ALLOWS FLEX REGULATION FROM HARDER TO SOFTER FOR A PERSONALIZED PERFORMANCE DEPENDING FROM THE RIDE

2

INFRARED TECHNOLOGY

BENEFITS

- SIMPLE & FAST
- INFRARED HEATING = NO DAMAGE ON BOOT
- TARGETS CUSTOMIZATION ONLY WHERE ITS NEEDED

1. Step in the boot
2. Highlight the pressure points on boot
3. Step out the boot
4. Remove the liner
5. Heat the area with the infrared lamp
6. Apply the suction cup element on warm area and start process until the pressure is neutralized (3 min max)
7. Remove the suction cup element
8. Replace the liner
9. Step in the boot

3

CUSTOM CORK

BENEFITS

- QUICK & CLEAN CUSTOMIZATION
- EASY TO DO
- REPEATABLE PROCEDURE

MOLDABLE

Cork naturally forms to the contours of your feet over time through body heat, making the liners comfortable and seamlessly integrated with the boot's shell for maximum performance.

FAST AND EASY CUSTOMIZATION

If time is tight Nordica's Custom Cork Liner, can be custom fit in 8 minutes. Additionally, the simple three-step process is endlessly repeatable.

SPORTMACHINE

ABSOLUTE CONTROL

THE ALL NEW SPORTMACHINE 3

NEW SPORTMACHINE ACP SYSTEM

The new Sportmachine is equipped with a adjustable cuff profile (ACP) to allow - with only one movement - a neutral standing position for every leg size, making skiing all day easier and more comfortable. Our R&D department has been able to redefine this feature, making it even better than the past. With the new ACP, Sportmachine can reach a larger variety of skiers, by having a total opening of the mechanism that can reach 14 mm more in total volume. Moreover, the new ACP is screwed on the cuff, ensuring more performance in skiing.

MORE VOLUME TO FIT MORE SKIERS, UNPARALLELED COMFORT AND INCREASED PERFORMANCE.

SAME TECHNOLOGY, TWO DIFFERENT ACP

A constant analysis on legs and anatomy led us to achieving important goals in differentiating not only products, but even technologies between men and women skiers. With ACP, we designed a dedicated shape which better accommodates women's lower legs. In women product, our team has also developed a different system, which is fixed with only one screw to the cuff (men version have two screws) that allows a more natural flex and stiffness based on women's average power and needs.

- MEN AND WOMEN DEDICATED FEATURE

MEN

ACP
+14MM

WOMEN

BACK TOOTH CONSTRUCTION

It's always hard to improve something which is almost perfect. To do that, our R&D team put all the effort in enhancing the performance on the new Sportmachine. It reached this ambitious goal by redesigning the whole cuff, adding the back tooth as conjunction between shell and cuff as we already did in our successful Promachine and Speedmachine line. This technical feature improves performance and carving feeling to the next level on Sportmachine.

- MORE PERFORMANCE, SAME BELOVED COMFORT.

NEW BUCKLES DESIGN

As we did with the ACP, we also researched the buckles leading us to engineer dedicated designs for men and women. An investment that is not only a fancy cosmetic touch, but gives us the opportunity to improve grip on buckles to open and close them easier than ever.

- NEW DESIGN MEN AND WOMEN
- EASIER OPEN AND CLOSING BUCKLE SYSTEM

HF

KEEP SKIING

HANDS FREE CLOSURE SYSTEM

Light, good looking, but especially sleek and well designed. The monolock buckle has never been so intuitive: it's just a matter of pushing it down with your foot and your done. At the end of your day, you can use your poles to help you open the back buckle while you remain standing.

DOUBLE AXIS PIVOT

The cuff and the shell of the new HF are specially designed to provide the perfect closure between the cuff parts and the shell. The alignment between the two provides unmatched lateral support for immediate ski response. This means easier turns, more stability, perfect control and more fun.

STRIDER

EXPLORE THE MOUNTAIN.

DESIGNED TO BE LIGHT, WARM AND COMFORTABLE.

Our Strider hike and ski boots are specially made for men and women skiers who'd rather ski new lines than stand around and wait in old ones. With their lightweight, modern design and 100mm last, they fit most feet right out of the box. Makes it easier to hike uphill without compromising downhill skiing performance.

MICHELIN® RUBBER TECHNICAL SOLES

Building a hiking boot that hikes as well as a Nordica ski boot skis wasn't easy, which is why we invited Michelin® to design, develop and construct a revolutionary new sole for our Strider family of hike and ski boots. The result is a fully integrated toe, arch and heel system that delivers matchless adherence and traction on snow, ice and almost any obstacle skiers are likely to meet in the face of adventure.

FROM MICHELIN® LATITUDE X-ICE NORTH CAR WINTER TIRES TO NORDICA GRIPWALK® SOLES

- 1 CHAMFERS REDUCE DAILY WEAR AND TEAR
- 2 HIGH EDGES PROMOTE BETTER ADHERENCE
- 3 REINFORCING BRIDGE STRENGTHENS SCULPTURES
- 4 SCULPTURED ARCH PROVIDES STABILITY AND CONTROL WHEN WALKING ON UNEVEN SURFACES
- 5 MASSIVE SCULPTURES ON SHOULDERS PROVIDE LATERAL STABILITY
- 6 MULTI-FACETED SCULPTURES INCREASE BRAKING

GRIP WALK

BENEFITS

- GRIP AND TRACTION ON ICY TERRAIN
- STABILITY & LATERAL CONTROL
- DURABILITY & WEAR RESISTANCE

LIGHTWEIGHT CUFF TRIFORCE CONSTRUCTION

- Three different types of plastic combine to deliver maximum comfort, performance and ease of use.
- Lightweight Triax cuff is 20% lighter than one made of PU.
- Super stiff sole and spine transmit energy precisely and directly to the skis.
- Softer shell and cuff wrap comfortably around the foot and lower leg for a snugger, comfier & more precise fit.
- Super soft entry & exit flaps.
- A size 26.5 (305mm) Strider weighs 100 grams less than a comparable Speedmachine.

BENEFITS

- HIGH RESISTANCE TO IMPACT STRESS ESPECIALLY AT LOW TEMPERATURES
- HIGH RESISTANCE TO TEMPERATURE STRESS (NO DIFFERENCE COLD/WARM)
- EXCELLENT RESISTANCE TO SCRATCHES
- LIGHTNESS (25% LIGHTER THAN PU)
- EXCELLENT UV RESISTANCE

HIKE MECHANISM

- Ultra-light cuff construction saves precious weight without sacrificing vital steering power and strength.
- Locked down, it delivers direct energy to the skis for that legendary Nordica downhill skiing performance.
- Opened, it promotes exceptional forward flex and facilitates hiking.

LACED 3D LIGHT CORK LINER WITH PRIMALOFT®

HIGH TRACTION SOLES + GRIPWALK® KIT READY

- Gripwalk soles mounted as standard equipment.
- Available kits
 - 08A045 00 000 - Strider PU alpine soles (5355)
 - 085017 00 000 - Strider Gripwalk Michelin Soles
 - 08A047 00 000 - Strider Gripwalk PU Soles

DYNAFIT® INSERTS (PRO DYN)

- Standard equipment on all Strider models.
- Compatible with ultra-light Dynafit Tour bindings.

LIGHTWEIGHT MESH POWER STRAP

- Unique mesh construction with weight-saving cut-outs.
- Beefy, 45mm width enhances shin contact, for a snugger fit and more precise and direct steering control.

WATERPROOF WEATHER SHIELD

- Locks out the wet and cold, keeps feet dry and warm.

LIGHTWEIGHT BUCKLES CONSTRUCTION & DESIGN

- Each buckle weighs 37.5 gr. vs 53.0 gr. for a conventional buckle.
- Wire bail further reduces weight while closing the boot, snugly and firmly in place.

ENFORCER

THE ROAD TO PERFECTION.

MEET LEGENDARY ENFORCER REFINEMENT.

Building off the proven Nordica Enforcer platform and listening to our customers, athletes, ambassadors, and test team, we are adding to the franchise. With more sizes and better lengths, we are refining perfection and pushing the limits of all mountain legendary performance.

TRUE TIP TECHNOLOGY

By trimming the amount of heavy ABS plastic in the tip and extending the lightweight wood core into this area with a taper that further reduces weight, we were able to increase playfulness and manoeuvrability of the ski while maintaining the classic powerful and stable feel that we all love so much.

OBSESSED WITH PERFECTION

CARBON REINFORCED CHASSIS

Our new carbon-reinforced chassis weighs about 35% less than traditional glass. Full length carbon strips not only reduce the chassis' weight, they also increase the ski's strength and stability. The result is a stronger, lighter, more stable Enforcer that's also more playful and versatile.

THE PERFECT BLEND

ROCKER + CAMBER + SIDECUT + CONSTRUCTION

Designed for those who embrace the entire mountain, the Enforcer series is the most versatile and advanced line of skis we've ever made. Lighter, smoother and more balanced than ever, they're are fine-tuned for all mountain fun in all conditions. Thanks to refined rocker depth, and Enforcer true tip technology and carbon-reinforced chassis, they deliver exceptional power and stability while offering a smoother, livelier and easier ride.

ENFORCER FREE

EMBRACE FREEDOM

Made for progressive skiers who embrace the entire mountain, the Enforcer Free and Santa Ana Free series are out to change the game. Inspired by our legendary Enforcer collection, these skis channel its trademark power and performance into playful designs tailored for freeriding and softer snow. Crafted to perfection with the perfect blend of rocker, camber and sidecut, they not only deliver a plush and playful ride, they also provide a surfy feel that's easy to steer and at home in soft snow. Whether pursuing powder, busting through crud, or simply rallying all over the mountain, the skis in the Enforcer Free and Santa Ana Free collections are all mountain artists with a freeride spirit.

THE WIDER - THE MORE MANEUVERABLE

EASIER TO NAVIGATE THROUGH VARIABLE TERRAIN

GEOMETRIC RUNNING BASE DESIGN

The Enforcer and Santa Ana running base design has a specific geometric shape to show two features of the ski: a horizontal cut indicates where the rocker starts; the intersection of the diagonal cut with the edge shows the ski's widest point.

WIDEST POINT OF SIDECUT:
Extends past the the point of contact for full engagement of the edge.

POINT OF CONTACT:
Rocker starts here

POINT OF CONTACT:
Rocker starts here

WIDEST POINT OF SIDECUT:
Extends past the the point of contact for full engagement of the edge.

SANTA ANA

From first chair to last, the Santa Ana delivers serious fun. Crafted for women who ski the entire mountain, it provides a smooth and powerful ride. And thanks to a design that's incredibly balanced and versatile, it inspires confidence in all terrain and conditions. The construction and shape combine true tip technology, carbon reinforced chassis, and specific terrain metal to deliver stability where you want it and flexibility where you need it. This creates a ski that's especially playful and easy to maneuver. Whether blasting through glades on a powder day or skiing groomers with friends, trust is the name of the game.

BORNFREE

Crafted for women who ski the entire mountain, the Santa Ana Free collection redefines all mountain versatility and fun. Thanks to its incredibly balanced design and construction, the Santa Ana provides a smooth surfy feel that's easy to steer and at home in soft snow. Whether pursuing powder, busting through crud, or simply rallying all over the mountain, the skis in the Santa Ana Free are the pure essence of freeride freedom. Now ski anything. Your way.

THE WIDER - THE MORE MANEUVERABLE

EASIER TO NAVIGATE THROUGH VARIABLE TERRAIN AND IN SOFT SNOW (PLAYFUL AND FUN)

SANTA ANA

FUEL YOUR PASSION

From first run to last, the Santa Ana delivers serious all mountain fun. Its perfectly balanced design and construction, including a narrower platform, deliver quicker edge-to-edge transitions and better grip for more precise carving. The terrain specific metal core provides stability where you want it and flexibility where you need it. Quick and nimble, the Santa Ana is our strongest, lightest and most playful all mountain women ski ever. Now go ahead, fuel your passion and ski anything. Your way.

THE NARROWER - THE MORE ON TRAIL PRECISION

MORE POWER, MORE STRENGTH ON HARD SNOW (QUICKER EDGE-TO-EDGE, BETTER GRIP)

TERRAIN SPECIFIC METAL

DIFFERENT DESIGNS FOR DIFFERENT LINES

The Santa Ana collection redefines all-mountain fun. With its carbon-reinforced layer and terrain specific metal sheet sized to each ski, it provides stability where you need it flexibility where you want it.

UNLEASHED

UNLEASH YOUR CREATIVITY.

Built for the modern freeskier, Nordica's Unleashed collection is perfect for those who spend their days off trail in the woods and chasing pow. With an emphasis on versatility, these skis provide the perfect blend of playfulness and performance. Their rockered tip and tail profile easily handles diverse terrain and variable conditions. And to further boost your confidence, they pair a wood core with carbon and a sheet of terrain-specific metal, which enhances edge hold and dampens vibrations for an especially smooth ride. If you view groomers as nothing more than how you get to the terrain you truly want to ski, the Unleashed is your soulmate. Your best days are yet to come—chase them down and turn loose your creativity with Nordica's Unleashed.

FOR WHOSE DAYS ON THE MOUNTAIN ARE SPENT OFF-TRAIL, IN THE WOODS, IN THE BUMPS, THE CHOP, AND POWDER. THE GROOMER ONLY GETS THEM TO THE TERRAIN THEY WANT TO SKI, DRIVEN BY THE BELIEF THAT THEIR BEST DAY ON SNOW IS YET TO COME.

THE PERFECT MARRIAGE OF PLAYFULNESS AND PERFORMANCE, TRANSFORMING THE MOUNTAIN INTO A PLAYGROUND.

WILD BELLE

EXPLORE THE MOUNTAIN WITH CONFIDENCE

Born from decades of research and experience, the all-new Wild Belle series is tailored to the unique needs of all-mountain skiers. These skis deliver a fun, playful, and confident ride that's stable at any speed. Thanks to a specially designed binding plate, the Wild Belles provide you with a more natural, centered position that enhances control. It also makes the ski especially easy to flex so you can explore the slopes like never before. Tame the entire mountain with Nordica's Wild Belles.

DOUBLE CORE TECHNOLOGY

The innovative construction designed and realized by our Research and Development department involves two wooden cores - both made of beech wood with six poplar stringers each - and a rubber Pulse Core layer inserted in-between. The combination of this unique wood, rubber, wood construction layup provides a high level of vibration absorption that contributes to a very smooth yet lively and precise ride.

WITH DOUBLE CORE TECHNOLOGY, NORDICA RISES TO A HIGH NEVER REACHED BEFORE: A PRODUCT DESIGNED FOR WOMEN.

BENEFITS

- GREAT FLEX CONTROL
- SKIS ARE MORE LIVELY
- HIGH DAMPENING
- STABLE AND SUPPORTIVE
- GREAT FUN

WOOD CORE 1

DOBERMANN SPITFIRE

RACING INSTINCT.

DOBERMANN SPITFIRE: THE FIRST MULTI-RADIUS SKI

This very special style of skis is possible thanks to the multi-radius concept that belongs to this ski since the beginning. Nordica in fact, with the Spitfire line, was the first ski brand to introduce the multi-radius concept taking the shape of our SL skis to develop tips and tails, and GS body. This makes the skis more reactive edge to edge, easy to get into the turn, but way more stable and playful during the turn. Construction comes directly from the WC experience, with sidewall and sandwich construction. Woodcore is a synonymous of quality, and the single sheet of titanal makes it stronger and more stable.

CARBON RACE BRIDGE 2.0

- STRENGTHENS TIP & TAIL
- IMPROVES TORSIONAL STABILITY
- INCREASES EDGE GRIP
- INCREDIBLY POWERFUL & PREDICTABLE TURNS

RECOIL POWER PLATE

UNLOCKS THE SKI'S TRUE POTENTIAL
Inspired by the most successful plate on the World Cup, the Marker Piston. Allows the ski to flex naturally making it more lively, playful and powerful.

- RACE-INSPIRED PLATE

DOBERMANN

RACING INSTINCT.

Starting from the ground up, using both the most modern technologies and 80 years of boot design and development knowledge to build the most anatomical high performance boot on the market, Nordica presents the Dobermann GP. Inspired and born from racing, the Dobermann GP features a 98mm mono injected PU performance shell design, an intuitive easy entry in-step, an all high performance custom cork liner, a Full Motion Pivot alignment system and a revolutionary Power Driver Strap design. Nordica packed the best of 80 years of boot building experience into the Dobermann GP to create a high performance experience skiers will love.

FULL MOTION PIVOT: CANTING REINVENTED

A great tool, taking the customization of your boots performance to the next level. The Full Motion Pivot as two settings. Classic or “OFF” (as it comes out of the box) and Responsive or “ON”, which allows the cuff to rotate outward 2 mm’s to deliver more power and more control.

- OPTIONAL CUFF CUSTOMIZATION
- ENHANCED POWER TRANSMISSION TO THE EDGE OF THE SKI
- OPTIONAL STANCE FOR MAXIMUM EFFICACY
- MECHANICAL ADVANTAGE + CUSTOM PERFORMANCE

ZEPPA (WEDGE)

This boot board has been designed to achieve the optimal natural skiing position with a ramp angle of 3°7’ (on size 26.5). Also to enhance performance we have increased the boot board platform by 2 mm to improve control and increase power transmission to the edge of the ski.

- RACING ZEPPA
- PERFORMANCE + CONTROL

LINER WITH CORK FIT TECHNOLOGY

45MM SERVO DRIVE

Nordica’s 45mm servo drive creates the perfect marriage between the upper cuff and upper liner, allowing them to uniformly and efficiently work as one.

- INCREASED POWER TRANSMISSION
- HIGH PERFORMANCE + CONTROL

BUCKLES

Nordica’s newly design intuitive buckles either articulate up or down, giving you improved leverage to either open or close your buckles with greater ease.

- SERVOLOCK
- COMFORT + FUNCTION

TOE BOX CONSTRUCTION

- MODERN TOE BOX CONSTRUCTION + WEATHER GUARD DESIGN

RENTAL

GOOD TIMES START HERE

EMPOWER YOUR CUSTOMERS TO MAKE MEMORIES

The rental market is rapidly evolving—and Nordica is helping lead the charge. Whether customers are hitting the slopes for the first time or seasoned veterans looking to try out the latest technology, Nordica’s rental skis and boots enable them to make memories that will last a lifetime. Thanks to our Standard All Mountain, Premium All Mountain, and Performance Demo collections of skis and boots and our Junior and Tweener offerings, we cater to the diverse needs of the modern skier and fleet operator. These products provide customers with the confidence and performance they crave while giving fleet operators the convenience and durability they demand. Let the good times roll with Nordica’s Rental collection.

PERFORMANCE DEMO:

Culled directly from our in-line collection, these high-performance skis and boots place an emphasis on power, precision, and control. Infused with modern designs and the latest technology, they’re perfect for destination travelers and any skier eager to enjoy the latest and greatest gear. A favorite of discerning skiers and fleet operators alike, Nordica’s Performance Demo collection meets the needs of modern skiers who demand flexibility and the opportunity to experience retail products through a pay-per-use experience.
*Includes All Retail Product ≥ \$499

PREMIUM ALL MOUNTAIN:

Inspired by our in-line offerings, these skis and boots cater to intermediate and advanced skiers while also enabling beginners to make turns and build their confidence. Equipped with an all-mountain design, these premium skis combine easy-turning rocker profiles with wider waists, sandwich construction, and full wood cores. Our Premier boots provide the perfect blend of control, precision, and comfort. And thanks to an emphasis on durability and ease of use, they’re the perfect solution for operators looking to upgrade their rental fleet to meet the demands of the modern skier. Nordica’s Premium All Mountain Rental collection helps skiers and fleet operators alike begin a fresh adventure.

STANDARD ALL MOUNTAIN:

Designed to meet the needs of beginner and intermediate skiers, this collection provides the perfect foundation for creating an entire fleet of price-point rental skis and boots. These models provide skiers with the comfort, confidence, and control to embrace green and blue groomers while also offering exceptional durability. And with an emphasis on convenience and ease of operation, these skis and boots get customers out the door and on the slopes as quickly as possible. Thanks to Nordica’s Standard All Mountain Rental collection, your customers will be making turns and memories all season long.

TWEENER:

Inspired by our in-line skis and boots, these full-featured products deliver the confidence and performance young skiers need to reach the next level. For maximum control, these skis sport full wood cores and true sidewalls. And with a performance-driven design that offers both comfort and precision, our boots ensure young skiers are paired with a last that truly aligns with their foot size.

JUNIOR:

Especially easy to turn and control, Nordica’s Junior skis provide the confidence and performance kids need to progress. And by placing an emphasis on comfort, our boots enable them to enjoy the slopes all day long. Help the next generation fall in love with skiing with Nordica’s Junior Rental collection.

RENTAL SKI BOOTS TECHNOLOGIES

Our dedicated rental boots are easier to size, easier to fit, easier to adjust, manage and maintain, which makes it easier for skiers to learn and have fun skiing.

1 PU CONSTRUCTION

To ensure better on-snow performance and longer lasting durability, every Nordica rental boot is constructed exclusively with PU plastics.

2 MACRO/MICRO BUCKLE ADJUSTMENTS

Faster, easier buckle adjustments meet the needs of today's rental customers.

MULTI-MACRO CATCH RANGE +/- 30mm
MULTI-MACRO BUCKLE RANGE: +/- 20mm
MICRO BUCKLE RANGE: +/- 10mm

3 SANITIZED® HYGIENICAL LINER

Keep your rental fleet as safe, clean and functional as possible. Every Nordica rental boot has a Sanitized Hygienical Liner that fights against odour and bacteria while maintaining the highest level of comfort.

BENEFITS

- INCREASE OF WEARING COMFORT
- OPTIMAL HYGIENE FUNCTION
- BUILT IN DEODORANT
- BACTERIOSTATIC & FUNGOSTATIC PROTECTION
- PROTECTS DURABLY FROM MICROBIAL ATTACK
- PROTECTION OF MATERIAL VS MICROBIAL DAMAGE

4 REPLACEABLE & WALKABLE SOLES

To promote safer and more natural movements while walking, Nordica GripWalk sole kits are available for all Speedmachine, Sportmachine, HF and The Cruise boots.

08A043 00 849 - Gripwalk Machine line Soles

Hot-stamped on plastic

7 RENTAL READY KIT

Incorporate any Nordica boot into your rental fleet with our easy to add bar code kits.

VELCRO POWER STRAP KIT INCLUDES:

- 20 pieces of Velcro strap band (10 right + 10 left) for 10 pairs of boots;
- 10 pairs of matched bar codes;
- 3 sheets of stickers that indicate the size and sole length of every Nordica JR and SR boot.

08A02800 000

8 ACP (ADJUSTABLE CUFF PROFILE)

ACP quickly and easily adjusts the dimensions of the upper cuff to match every leg size and shape for maximum comfort and an optimum stance.

SPEEDMACHINE W ACP +/- 8mm VOLUME
SPORTMACHINE ACP +/- 14mm VOLUME
CRUISE ACP +/- 12mm VOLUME

RENTAL SKI TECHNOLOGIES

RENTAL READY

1 OPTIMIZED TIP/TAIL PROPORTION (V17)

More harmonic feel throughout the entire turn.

2 STRONGER EDGE

Harder, thicker edge material increases the durability and prolongs the life of the ski.

3 EXTRA DURABLE KNOPPE TOPSHEET

Extra thick, longer lasting PU topsheet resists scratching and maximizes durability.

4 TIP & TAIL PROTECTORS

Integrated steel tip and tail protectors prevent topsheets from chipping and further extend the life of the ski.

5 TOOL-FREE BINDING

Easy-to-use Marker FDT binding system offers quick, intuitive adjustments. Sliding toe and heel adjustment properly seats the boot on the ski, so skiers are more balanced and better positioned to turn their skis more easily.

6 FORWARD PRESSURE CONFIRMATION

Easy-to-read forward pressure indicator instantly confirms forward pressure adjustment.

7 GRIPWALK® BINDINGS

Accept GripWalk soles with no extra adjustments required.

DEDICATED RENTAL FEATURES AVAILABLE ON SELECTED SKIS

1 FULL CAP CONSTRUCTION

Protects the topsheet from chipping and extends the life of the ski.

2 PARTIAL SIDEWALL CONSTRUCTION

Capped tips and tails protect skis against chipping while full sidewall construction underfoot increases power, stability and edge grip.

3 BAR CODED INVENTORY SYSTEM

An easy-to-read bar code integrated into the FDT plate simplifies inventory control and management.
